PIXEL PALACE

Level up your day.

PROFESSIONAL COMMUNICATION ETHICS SOP

Document No.	PP-SOP-003 (Proposal)	**Version**	1.0 (Proposal)
Applies to	All employees and management	**Approval**	CEO, then Owner
Review cycle	Every 12 months	**Related documents**	PP-SOP-001; PP-IT-001

1. Purpose

• Set clear standards for respectful, professional, secure, and accountable communication within Pixel Palace and with customers, suppliers, and other external parties.

2. Official Communication Etiquette

• **Email:** Use approved company accounts for official business. Write a clear subject, concise message, appropriate greeting, and professional sign-off. Check recipients and attachments before sending; avoid unnecessary “reply all.”

• **Telephone:** Answer politely, identify yourself and Pixel Palace where appropriate, listen without interruption, confirm key details, and record or pass on messages promptly.

• **Meetings:** Attend on time and prepared, allow others to speak, stay on topic, protect confidential discussion, and record decisions, action owners, and due dates.

• **Messaging:** Use approved work channels for business communication. Keep messages courteous and relevant; avoid abusive language, excessive tagging, and sharing confidential information in unauthorized groups.

3. Language, Tone & Response Times

• Use clear, courteous, inclusive language. Avoid insults, threats, discriminatory remarks, gossip, aggressive wording, and all-caps messages intended to intimidate.

• Proposed response standards during the recipient’s scheduled working hours: acknowledge routine internal messages within 1 working day; acknowledge customer or business enquiries within 1 business day; urgent operational matters should be raised by telephone or the designated urgent channel immediately.

• These are proposed service standards, not a requirement to monitor messages outside scheduled hours. For urgent safety or security issues, follow the relevant incident escalation process.

4. Confidentiality, Respect & Anti-Harassment

• Share company, employee, customer, financial, and operational information only with authorized recipients who need it for legitimate work.

• Do not forward confidential messages, disclose customer details, or record/share meetings without authorization. Follow PP-IT-001 for email, messaging, data handling, and security.

• Harassment, bullying, discrimination, sexual harassment, threats, retaliation, and deliberately humiliating communication are prohibited, whether in person or through digital channels.

• Respect professional boundaries and cultural differences. Report concerns in good faith; retaliation against a person who raises a concern is prohibited.

5. Conflict Resolution & Reporting

• Where safe and appropriate, address minor misunderstandings calmly and privately, focusing on facts and practical solutions.

• If unresolved, escalate to the relevant line manager. Sales and Marketing Executives report to the HR/Sales/Marketing Manager; the Supervisor reports to the Operations Officer; department heads report to the CEO.

• Report harassment, threats, discrimination, serious misconduct, or concerns involving your manager to HR/Sales/Marketing Manager or the CEO. If a concern involves the CEO, raise it directly with the Owner.

• Preserve relevant messages or records and share them only with authorized persons. Management should handle reports discreetly, assess them fairly, document findings, and take appropriate action under PP-SOP-001 and applicable law.

6. Decisions, Commitments & Records

• Document material decisions, approvals, customer promises, deadlines, pricing exceptions, and assigned actions in an appropriate company email, meeting record, CRM, or approved system.

• Meeting notes should identify the date, participants, decision, action owner, deadline, and any follow-up required. Correct errors promptly and do not alter records to mislead.

• Only authorized personnel may approve commercial terms, discounts, contracts, public statements, or commitments on behalf of Pixel Palace.

7. Responsibilities, Approval & Review

• All staff must follow this SOP. Managers lead by example and address communication concerns promptly. Use PP-SOP-001 for general conduct, reporting lines, escalation, and discipline; use PP-IT-001 for technology and information security requirements.

• This SOP is reviewed every 12 months or earlier if needed. The CEO reviews and recommends changes, followed by final approval from the Owner.

Verification note: PP-SOP-003 and version 1.0 are proposed identifiers. The response-time standards are proposals for management approval. Apply this SOP consistently with applicable Pakistani law and existing company policies.
