SALES TARGETS & PERFORMANCE PLAN

Document No.	PP-SAL-001 (Proposal)	**Version**	1.0 (Proposal)
Owner	HR/Sales/Marketing Manager	**Approval**	CEO, then Owner
Review	Monthly performance; plan reviewed quarterly	**Related documents**	PP-SOP-001; PP-IT-001

1. Purpose & Planning Assumptions

• Set measurable sales goals for walk-in gaming, repeat visits, group bookings, birthday packages, tournaments, and other approved offers.

• **All numbers below are proposed planning assumptions, not verified business forecasts.** Validate them against station capacity, price list, opening-month footfall, costs, and actual booking data.

• Illustrative revenue mix: 80% gaming sessions and walk-ins; 20% group bookings, parties, tournaments, and packages. Revenue means recorded sales before expenses; Finance Director reconciles figures to receipts and accounts.

2. Monthly & Quarterly Revenue Targets (Proposal)

Paragraph('caseSensitive': 1 'encoding': 'utf8' 'text': 'Period' 'frags': [ParaFrag(__tag__='para', bold=1, fontName='Helvetica-Bold', fontSize=7, greek=0, italic=0, link=[], rise=0, text='Period', textColor=Color(1,1,1,1), us_lines=[])] 'style': 'bulletText': None 'debug': 0) #Paragraph	Paragraph('caseSensitive': 1 'encoding': 'utf8' 'text': 'Revenue target (PKR)' 'frags': [ParaFrag(__tag__='para', bold=1, fontName='Helvetica-Bold', fontSize=7, greek=0, italic=0, link=[], rise=0, text='Revenue target (PKR)', textColor=Color(1,1,1,1), us_lines=[])] 'style': 'bulletText': None 'debug': 0) #Paragraph	Paragraph('caseSensitive': 1 'encoding': 'utf8' 'text': 'Qualified leads' 'frags': [ParaFrag(__tag__='para', bold=1, fontName='Helvetica-Bold', fontSize=7, greek=0, italic=0, link=[], rise=0, text='Qualified leads', textColor=Color(1,1,1,1), us_lines=[])] 'style': 'bulletText': None 'debug': 0) #Paragraph	Paragraph('caseSensitive': 1 'encoding': 'utf8' 'text': 'New paying customers' 'frags': [ParaFrag(__tag__='para', bold=1, fontName='Helvetica-Bold', fontSize=7, greek=0, italic=0, link=[], rise=0, text='New paying customers', textColor=Color(1,1,1,1), us_lines=[])] 'style': 'bulletText': None 'debug': 0) #Paragraph	Paragraph('caseSensitive': 1 'encoding': 'utf8' 'text': 'Group/event bookings' 'frags': [ParaFrag(__tag__='para', bold=1, fontName='Helvetica-Bold', fontSize=7, greek=0, italic=0, link=[], rise=0, text='Group/event bookings', textColor=Color(1,1,1,1), us_lines=[])] 'style': 'bulletText': None 'debug': 0) #Paragraph
Month 1	900,000	240	180	8
Month 2	1,050,000	280	210	10
Month 3	1,200,000	320	240	12
Quarter 1 total	3,150,000	840	630	30

Target logic: ramp-up assumes awareness and repeat visits improve over the first three months. Quarterly targets are the sum of the three monthly targets; revise after the first 30 days of actual results.

3. Roles & Sales Responsibilities

• **HR/Sales/Marketing Manager:** owns the sales plan, assigns targets, reviews pipeline and conversion, approves offers within authority, coaches the team, and reports to the CEO.

• **Sales Executive:** handles enquiries and leads, responds to booking requests, follows up, closes group/event bookings, maintains CRM records, and submits daily activity reports.

• **Marketing Executive:** generates trackable leads through social content, campaigns, partnerships with schools/universities and local groups, referral offers, and event promotions; reports source and campaign results.

• **Supervisor / Operations Officer:** confirm floor capacity, session availability, event readiness, and customer handover; do not promise unavailable slots or unapproved discounts.

• **Finance Director:** reconciles sales reports against POS/receipts and records; investigates discrepancies with the manager.

4. Lead Generation & Customer Acquisition

• Prioritize walk-in customers, repeat-visit offers, friend/referral recommendations, birthday and group packages, tournament registrations, and local institutional/community partnerships.

• Proposed monthly new-paying-customer goals: 180 in Month 1, 210 in Month 2, and 240 in Month 3. Count a customer only once as a new customer during the reporting period; keep repeat visits separate.

• Capture lead source (walk-in, social media, referral, partner, event, phone/message), enquiry date, interest, expected value, next action, and outcome.

5. Conversion, Follow-up & CRM Procedures

• Proposed qualified-lead-to-paying-customer conversion target: 25% initially, with a 30% target by Month 3 after baseline review. Define a qualified lead as a person or group with a stated interest and realistic visit/booking intent.

• **Follow-up schedule:** respond during business coverage as soon as practical; follow up on unclosed enquiries within 24 hours, again after 3 days, and once after 7 days. Stop promotional follow-ups if the person declines or opts out.

• Record every lead and contact in the approved CRM or controlled tracker. Required fields: lead ID, date, name/contact (only as needed), source, interest, consent/opt-out status where applicable, owner, status, estimated value, last contact, next follow-up, and outcome.

• Limit CRM access to authorized staff; use strong access controls and handle customer data under PP-IT-001. Do not store customer details in personal accounts or unapproved devices.

PIXEL PALACE — SALES PERFORMANCE & REPORTING

Sales reporting template, KPI definitions, and review process

6. Daily / Weekly Sales Reporting Template

• Sales Executive completes daily; HR/Sales/Marketing Manager reviews weekly; Finance Director validates revenue.

Paragraph('caseSensitive': 1 'encoding': 'utf8' 'text': 'Date / Period' 'frags': [ParaFrag(__tag__='para', bold=1, fontName='Helvetica-Bold', fontSize=7, greek=0, italic=0, link=[], rise=0, text='Date / Period', textColor=Color(1,1,1,1), us_lines=[])] 'style': 'bulletText': None 'debug': 0) #Paragraph	Paragraph('caseSensitive': 1 'encoding': 'utf8' 'text': 'Leads received' 'frags': [ParaFrag(__tag__='para', bold=1, fontName='Helvetica-Bold', fontSize=7, greek=0, italic=0, link=[], rise=0, text='Leads received', textColor=Color(1,1,1,1), us_lines=[])] 'style': 'bulletText': None 'debug': 0) #Paragraph	Paragraph('caseSensitive': 1 'encoding': 'utf8' 'text': 'Follow-ups due/completed' 'frags': [ParaFrag(__tag__='para', bold=1, fontName='Helvetica-Bold', fontSize=7, greek=0, italic=0, link=[], rise=0, text='Follow-ups due/completed', textColor=Color(1,1,1,1), us_lines=[])] 'style': 'bulletText': None 'debug': 0) #Paragraph	Paragraph('caseSensitive': 1 'encoding': 'utf8' 'text': 'New customers' 'frags': [ParaFrag(__tag__='para', bold=1, fontName='Helvetica-Bold', fontSize=7, greek=0, italic=0, link=[], rise=0, text='New customers', textColor=Color(1,1,1,1), us_lines=[])] 'style': 'bulletText': None 'debug': 0) #Paragraph	Paragraph('caseSensitive': 1 'encoding': 'utf8' 'text': 'Bookings won' 'frags': [ParaFrag(__tag__='para', bold=1, fontName='Helvetica-Bold', fontSize=7, greek=0, italic=0, link=[], rise=0, text='Bookings won', textColor=Color(1,1,1,1), us_lines=[])] 'style': 'bulletText': None 'debug': 0) #Paragraph	Paragraph('caseSensitive': 1 'encoding': 'utf8' 'text': 'Revenue (PKR)' 'frags': [ParaFrag(__tag__='para', bold=1, fontName='Helvetica-Bold', fontSize=7, greek=0, italic=0, link=[], rise=0, text='Revenue (PKR)', textColor=Color(1,1,1,1), us_lines=[])] 'style': 'bulletText': None 'debug': 0) #Paragraph

7. Core KPIs

Paragraph('caseSensitive': 1 'encoding': 'utf8' 'text': 'KPI' 'frags': [ParaFrag(__tag__='para', bold=1, fontName='Helvetica-Bold', fontSize=7, greek=0, italic=0, link=[], rise=0, text='KPI', textColor=Color(1,1,1,1), us_lines=[])] 'style': 'bulletText': None 'debug': 0) #Paragraph	Paragraph('caseSensitive': 1 'encoding': 'utf8' 'text': 'Definition' 'frags': [ParaFrag(__tag__='para', bold=1, fontName='Helvetica-Bold', fontSize=7, greek=0, italic=0, link=[], rise=0, text='Definition', textColor=Color(1,1,1,1), us_lines=[])] 'style': 'bulletText': None 'debug': 0) #Paragraph	Paragraph('caseSensitive': 1 'encoding': 'utf8' 'text': 'Proposed target / use' 'frags': [ParaFrag(__tag__='para', bold=1, fontName='Helvetica-Bold', fontSize=7, greek=0, italic=0, link=[], rise=0, text='Proposed target / use', textColor=Color(1,1,1,1), us_lines=[])] 'style': 'bulletText': None 'debug': 0) #Paragraph
Revenue attainment	Actual revenue ÷ revenue target × 100	100% monthly target
Lead conversion	New paying customers ÷ qualified leads × 100	25% baseline; review toward 30% by Month 3
Follow-up completion	Follow-ups completed on time ÷ follow-ups due × 100	At least 90%
New paying customers	Unique first-time paying customers in period	M1: 180; M2: 210; M3: 240
Group/event bookings	Confirmed and paid group/event bookings	M1: 8; M2: 10; M3: 12
Repeat-visit rate	Customers returning within chosen measurement window ÷ eligible customers	Track baseline first; set target after 30 days
Data completeness	Leads with required CRM fields ÷ total leads × 100	At least 95%

8. Performance Review & Missed-Target Improvement Plan

• **Daily:** Sales Executive logs leads, follow-ups, bookings, and sales.

• **Weekly:** Manager reviews pipeline, conversion, lead sources, follow-up quality, and upcoming events; assigns corrective actions.

• **Monthly:** Manager and Finance Director compare actual sales with targets and reconcile revenue; manager discusses results with the CEO as needed.

• **Quarterly:** CEO reviews target realism and plan effectiveness; policy/plan changes follow the approval route of CEO then Owner.

• If below 90% of target for a month, review causes (traffic, availability, pricing, campaign quality, response delays, cancellations), agree a 30-day improvement plan, and check progress weekly. Actions may include role-play/coaching, faster lead response, reactivating old leads where permitted, testing offers approved by management, and adjusting lead sources. Repeated shortfalls are handled consistently with PP-SOP-001.

9. Governance & Review

• Use PP-SOP-001 for attendance, conduct, reporting lines, escalation, and discipline. Use PP-IT-001 for customer information, approved tools, access, and data security.

• This plan is a proposed operational document. Review after the first 30 days of trading and quarterly thereafter. Any policy-level changes require CEO review followed by Owner approval.

Verification note: PP-SAL-001, the revenue and activity targets, and KPI thresholds are proposals. Confirm pricing, capacity, baseline traffic, CRM choice, and finance reporting method before adoption.
