PIXEL PALACE

Organizational Chart and Job Descriptions

PP-ORG-001 | Version 1.0 (proposed) | Status: Draft for review

Startup Launch and Business Development Consultancy Team

Brand promise: Level up your day.

1. Purpose and organizational structure

This document defines reporting relationships, role accountability, decision boundaries and cross-team coordination for Pixel Palace. The chart below covers all 11 positions and follows the reporting structure supplied for this assignment.

The Owner provides strategic oversight and final approval. The CEO leads business execution. Functional leaders manage their areas and coordinate through the CEO. Executive and floor roles report through their designated managers.

Level	Position	Reports to
1	Owner	—
2	CEO	Owner
3	HR/Sales/Marketing Manager	CEO
3	Finance Director	CEO
3	Operations Officer	CEO
3	IT Manager	CEO
3	Security Manager	CEO
3	Documentation & Compliance Coordinator	CEO
4	Sales Executive	HR/Sales/Marketing Manager
4	Marketing Executive	HR/Sales/Marketing Manager
4	Supervisor	Operations Officer

Visual organizational chart

OWNER		
↓		
CEO		
↓ — functional leadership — ↓		
HR / SALES / MARKETING MANAGER | FINANCE DIRECTOR | OPERATIONS OFFICER | IT MANAGER | SECURITY MANAGER | DOCUMENTATION & COMPLIANCE COORDINATOR		
↓	↓	↓
Sales Executive	Marketing Executive	Supervisor

The six functional leaders report directly to the CEO. Sales Executive and Marketing Executive report to the HR/Sales/Marketing Manager; Supervisor reports to the Operations Officer. The chart is simplified for page readability; these reporting lines are authoritative.

2. Job descriptions and decision boundaries

Owner

Purpose: Set direction, protect the business and approve major commitments. **Responsibilities:** strategy, capital and major budget approval, CEO oversight, approval of final policies and material risk decisions. **Reports to:** no internal role. **Boundary:** avoid bypassing routine supervisors for daily task direction except for urgent risk or explicit delegation.

CEO

Purpose: Lead execution and overall performance. **Responsibilities:** business plans, cross-team priorities, management reviews, resolving escalated issues, reviewing policy changes, approving campaigns and operating decisions within delegated authority. **Reports to:** Owner. **Boundary:** refer capital commitments, policy adoption and exceptions reserved to the Owner for approval.

HR/Sales/Marketing Manager

Purpose: Lead people administration and commercial growth. **Responsibilities:** recruitment coordination with CEO, onboarding and performance processes, sales pipeline, marketing plan, campaign review, customer relationship standards, team targets and sales/marketing reporting. **Reports to:** CEO. **Direct reports:** Sales Executive and Marketing Executive. **Boundary:** cannot commit unapproved discounts, advertising spend or employment terms beyond written authority.

Finance Director

Purpose: Maintain financial control and useful reporting. **Responsibilities:** budget preparation, cash and payment controls, bookkeeping/reconciliation oversight, invoices, expense review, financial reports and fraud-risk escalation. **Reports to:** CEO. **Boundary:** verify transactions and enforce approved limits; do not self-approve exceptions or override the Owner's approved budget.

Operations Officer

Purpose: Ensure reliable daily venue delivery. **Responsibilities:** staffing coverage, daily workflow, service quality, maintenance coordination, inventory requests, issue logs, operational reports and corrective actions. **Reports to:** CEO. **Direct report:** Supervisor. **Boundary:** may isolate unsafe equipment/areas immediately; major closure, unbudgeted spending or policy exceptions are escalated.

IT Manager

Purpose: Maintain secure, available and supported technology. **Responsibilities:** device/network readiness, authorized software, access control, backup coordination, technical support, patching, asset register and IT incident handling. **Reports to:** CEO. **Boundary:** may disable compromised access or isolate affected systems; changes to material systems and spending follow approval rules and PP-IT-001.

Security Manager

Purpose: Protect people, premises and assets. **Responsibilities:** access and visitor controls, security checks, emergency readiness, incident coordination, asset protection and security reporting. **Reports to:** CEO. **Boundary:** may take immediate protective action in an emergency and contact emergency services where necessary; must not conduct unauthorized searches or disclose CCTV/incident records.

Documentation & Compliance Coordinator

Purpose: Maintain controlled, traceable documentation and support compliance. **Responsibilities:** document register, version control, approval records, forms/templates, retention coordination, compliance reminders and audit evidence. **Reports to:** CEO. **Boundary:** may flag non-compliance and request corrections; does not independently provide legal advice or approve policies unless delegated.

Sales Executive

Purpose: Convert inquiries into visits and bookings ethically. **Responsibilities:** respond to leads, qualify needs, explain approved prices and terms, maintain CRM records, follow up, coordinate bookings and report conversion/objections. **Reports to:** HR/Sales/Marketing Manager. **Boundary:** no unauthorized discounts, guarantees, customer-data sharing or binding commitments outside approved terms.

Marketing Executive

Purpose: Create consistent and measurable brand communications. **Responsibilities:** content calendar, creative production, social scheduling, campaign tracking, community monitoring, consent records and weekly dashboard. **Reports to:** HR/Sales/Marketing Manager. **Boundary:** publish only approved claims, prices, imagery and campaign offers; escalate sensitive public issues.

Supervisor

Purpose: Coordinate floor delivery and shift handovers. **Responsibilities:** allocate daily tasks, confirm readiness/cleanliness, monitor customer flow, log issues, check session records, manage handovers and submit daily summaries. **Reports to:** Operations Officer. **Boundary:** may stop use of unsafe equipment and isolate hazards; cannot approve spending, refunds or disciplinary actions beyond delegated authority.

3. Approval limits and authority matrix

No monetary limits were supplied for this assignment. The matrix below defines approval principles without inventing PKR amounts. The Owner/CEO should complete a signed delegation schedule before staff are authorized to commit company funds.

Decision / activity	Responsible	Approval / escalation
Routine task allocation within approved plan	Functional manager / Supervisor	Within role authority
Expense or purchase request	Requesting manager	Finance checks budget and records; approver follows signed delegation schedule
New vendor, contract or recurring commitment	Relevant functional leader	CEO review; Owner approval where material or reserved
Budget, borrowing, capital purchase or material unbudgeted spend	Finance Director prepares analysis	CEO recommends; Owner approves
Discounts, refunds, complimentary sessions	Sales/Operations records request	Only within written price/refund matrix; otherwise manager/CEO approval
Public campaign, price change or brand partnership	HR/Sales/Marketing Manager	CEO approval; Owner approval for material partnership/commitment
Hiring, pay changes, termination	HR/Sales/Marketing Manager coordinates	CEO approval within approved plan; Owner approval for senior roles or reserved matters
Emergency response / immediate safety action	Any staff member alerts; Security/Operations lead	Act to protect life; notify CEO as soon as practicable and document
Policy revision	Document owner drafts	CEO review → Owner approval
Access to sensitive records / system admin	System or record owner	Authorized, role-based approval and logging

Required before adoption: define spending thresholds, purchasing and payment signatories, refund/discount limits, hiring authority, contract-signing authority, and emergency expenditure rules. Separate requester, approver and payment/reconciliation duties where staffing allows.

4. Cross-team coordination and management rhythm

Daily: Supervisor sends the operations summary to Operations Officer; Sales Executive shares booking and customer-demand updates with the HR/Sales/Marketing Manager; IT and Security report critical incidents immediately to the relevant functional lead and CEO.

Weekly: CEO or delegate chairs a short cross-functional review covering bookings and campaigns, cash/expense issues, station availability, customer complaints, security risks, inventory and overdue corrective actions. Record decisions, owners and due dates.

Monthly: Finance Director presents financial performance; Operations Officer presents quality and service trends; HR/Sales/Marketing Manager presents sales and marketing KPIs; IT Manager and Security Manager summarize material incidents and preventive work; Documentation & Compliance Coordinator reports document reviews and outstanding compliance actions.

Use a shared action log with issue, priority, owner, due date, status, evidence and escalation path. Share only the minimum customer or employee data required for coordination.

5. Performance, conduct and review

Each role should have a short role scorecard with 3–5 measurable objectives agreed by the line manager. Assess results alongside quality, safety, ethical conduct, accurate records and teamwork; no target justifies misleading customers or bypassing controls.

Follow PP-SOP-001 for general office conduct, attendance and discipline; PP-IT-001 for technology and data; PP-SOP-002 for security; PP-SOP-003 and PP-SOP-004 for professional and client communication; PP-HR-001 for HR processes; and PP-FIN-001 for finance and expense controls.

Review this document every 12 months or after a material organizational change. CEO reviews revisions and Owner approves final adoption. Job titles and authority boundaries should be updated if staffing or delegated authority changes.
